TO WHOM IT MAY CONCERN

Re: Letter of Recommendation for Katrin Bentley

I have known Katrin Bentley for a number of years and have great respect for her insight into Autism Spectrum Disorders, in particular, Asperger's syndrome and her remarkable abilities as a counsellor to individuals with Asperger's syndrome and their families. She has had an opportunity to observe my work here in Brisbane and she has developed her own excellent resources and programs. I recommend Katrin's input to individual programs and presentations to both parents and professionals.

Katrin has extensive experience, not only in terms of couples and relationships where one of the partners has the characteristics of an Autism Spectrum Disorder, but also in supporting teenagers at High School. She has an ability to see the perspective of the teachers, parents and especially the person with an Autism Spectrum Disorder. She also has an ability to improve communication between the person with an Autism Spectrum Disorder and school staff.

Yours faithfully

Professor Tony Attwood
